QAPP for Pre-CERCLIS Screening at Bridgeton Dust Site 2016 12 16.doc

Tom – I haven't seen Todd's comments yet. But here's the latest. We're having a small holiday work function this afternoon, so I might have to look at Todd's comments later this evening or tomorrow (which is no problem). Obviously if it's something minor and you just want to change it before sending for review—feel free. I'll continue with the last internal review so that it can be ready for signature on Monday.
